

2021 DISTINGUISHED SENIOR

“Studying abroad in Brazil for six weeks with Alpha Zeta Partners developed my global perspective of the food and agricultural industry and gave me life-long memories. The length of the experience allowed me to immerse myself in the culture and adapt to a new environment.”

I developed products for: Ocean Spray's development competition; the development capstone class; and for IFTSA's development competition.

As a research assistant, I conducted background research, cataloged market instrumentation, and ran preliminary trials.

I completed four, different projects during my internship with The J.M. Smucker Company while being mentored by salaried staff.
