

2021 DISTINGUISHED SENIOR

While employed by United Dairy Farmers, I was tasked with maintaining the food safety specifications of cold products.

I worked with local area families through volunteering with Buckeyes Give a Break by providing daycare and other supports to parents in need.

I observed the ice cream production process at the Graeter's ice cream plant and assisted in maintaining workplace and food safety standards.

“My research experiences allowed me knowledge of how a plant works, how to check for microbial safety within all products and the facility and learn how to communicate and cooperate with all employees including your boss, CEO, or other plant workers.”
