

2021 DISTINGUISHED SENIOR

I gained experience in various fields of dining services including food preparation, quality control, and consumer service during my internship with OSU Dining.

Becoming a CFAES peer mentor last year was very enjoyable and rewarding. This required learning and preparation, but it was so worth it.

I started my undergraduate research work with Dr. Jimenez and his team, which focuses on dairy.

“I am so thankful for my teammates, coaches, and professors who have helped me and taught me so much throughout this process, as well as equipping me with a skillset that I will carry on forever.”
