

2021 DISTINGUISHED SENIOR

I worked with Dr. King for my capstone project to develop a professional mentorship program for undergraduate CFAES veterans.

I was part of a hiring committee for a new professor, which gave me a sense of having arrived in my collegiate career.

I have been involved in the CFAES student council and Diversity, Equity, and Inclusion action committee.

“After taking six years off from school, I had to reintegrate into the experience that is collegiate academics. This was by no means easy or painless but it has set me on a path of lifelong learning that I hope will allow me to succeed wherever I go moving forward in life.”
