

2021 DISTINGUISHED SENIOR

“All of these opportunities prepare me for my future as an Agriscience Educator where I hope to instill community service opportunities within the future program.”

By the end of my time with Stratford Ecological Center, I had grown from a farm hand to someone able to plan and execute different projects.

I participated in a sustainable agriculture workshop at Wyatt Run Farms that encouraged me to think about the world around us in new ways.

I volunteered with Our Community Pantry in Dallas, TX through the Agricultural Education Society.
