

2022 DISTINGUISHED SENIOR

“I learned about what it means to be a global citizen while promoting sustainable community development and making friends on the other side of the world.”

I conducted my own research analyzing Alum Creek water samples for mudpuppy eDNA through the SENR Honors program.

I was a member of the SUSTAINS Learning Community, where I participated in professional development and sustainability programs.

I traveled to Tanzania in 2019 through Growth International Volunteer Excursions where I performed community development service.
