

2022 DISTINGUISHED SENIOR

I completed two internships at Philmont Scout Ranch in New Mexico, where I taught thousands of scouts and leaders about forestry.

I participated in Net Impact, a club encouraging sustainability in business, as well as Buckeyethon and Mountaineers at OSU.

I worked as a Peer Mentor and Ambassador for the School of Environment and Natural Resources, and an instructional assistant in SENR classes.

“Working on a timber stand improvement project, I got to learn all about the operations that go into managing a forestry site. I was launched into lots of amazing adventures and met people that have become some of my best friends.”
