

2022 DISTINGUISHED SENIOR

“Coming into college, I didn’t consider myself a relationship-centered person. However, the greatest thing that I learned is that the people you surround yourself with will define a lot of what your life looks like.”

I traveled all over the country through my internship with Valent USA and learned about the breadth of American agriculture.

I was a member and leader of Collegiate Farm Bureau, FarmHouse Fraternity, and a CFAES Ambassador.

I conducted an independent research study concerning the lawful use of pesticides in Ohio agriculture.
