Returning to Pre-COVID Processes: Reminders

The Logistical Scheduling Coordinator is NOT notified by the University or the College when course change requests and/or new courses are approved/finalized in curriculum.

It is the responsibility of the Unit Scheduling Contact to let the Logistical Scheduling Coordinator know when - as a result of approval in curriculum - something needs to be built, or a revision is needed.

Examples: Course Approvals

Returning to Pre-COVID Processes: *Initial Revisions*

Spring 2022 Initial Revisions

DUE Wednesday, July 14, 2021

Initial Revisions are when all unit revisions should be submitted, especially:

- Instruction Mode
- Session Length
- Room Preference (main campus or mid-west campus)
- Meeting Patterns (day/time)
- New Course Builds
- Minor Revisions

Process Timeline

Initial revisions received.

Submitted revisions processed.

Registrar's Office limits access to scheduling system during mass placement of classrooms.

Access to scheduling system is reactivated three days before the schedule goes live in BuckeyeLink Class Search.

All instruction modes, session lengths, and meeting patterns should be finalized BEFORE the schedule goes live in Class Search.

After student enrollment has begun, changes will always impact students, so changes at that point are to be avoided.

- The addition of extra/new sections is the only major modification that should be transacted at this point.
- NO instruction modes, session lengths, locations, nor meeting patterns (day/time) are to be altered after student enrollment has started.
- Minor adjustments
 - Enrollment caps and instructors may be changed.

- After the session has begun, no major adjustments are to occur.
 - Minor adjustments only:
 - Enrollment caps and instructors may be changed.

Listed start time must be an <u>approved start time</u>, unless an exception has been made, for example a 2:30 PM start time for ANIMSCI 2401 at the Equine Center.

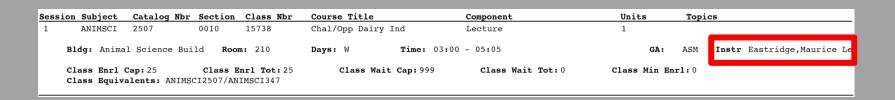

Example: Day(s) and Time(s) Change

Items to check: Instructor

- Instructor name, provide OSU name.# for instructor modifications.
 - For courses xx89, x193, x999, etc, when adding and dropping instructors, mark as many of those changes as instructor changes rather than requesting a completely new section addition.

Items to check: Enrollment Cap

- Total combined cap vs. individual section cap.
 - Total combined cap = the enrollment cap set for the <u>combined</u> section. The combined section is comprised of cross-listed sections, Wooster and Columbus sections, and/or undergraduate and graduate sections.
 - Individual sections caps = the enrollment cap set for each stand-alone section.

Example 1: Total Combined Enrollment Cap

Total Combined Cap for the Combined Section	30
Individual Enrollment Cap for Section 1	30
Individual Enrollment Cap for Section 2	30

Example 2: Total Combined Enrollment Cap

Total Combined Cap for the Combined Section	30
Individual Enrollment Cap for Section 1	30
Individual Enrollment Cap for Section 2	15

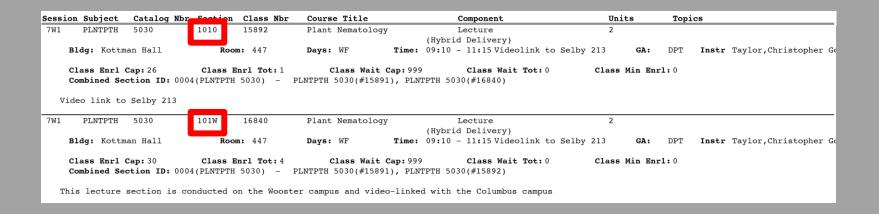

Example 3: Total Combined Enrollment Cap

Total Combined Cap for the Combined Section	30
Individual Enrollment Cap for Section 1	15
Individual Enrollment Cap for Section 2	15

Items to check: Wooster and Columbus

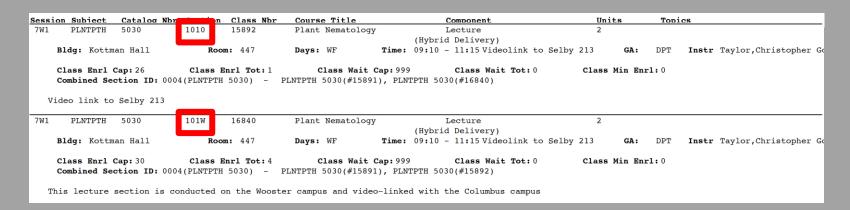

Identify courses needing Wooster sections in addition to Columbus sections.

This includes research hours and individual studies.

Wooster Sections

- Location Code = Location (below) = where the course is actually meeting, not the campus offering the course.
- Campus of Offering = Campus/Catalog = the campus responsible for the master scheduling catalog of the courses.

Wooster Sections

Any **graduate** courses (5000 and up) that need a Wooster section, will be listed in the Columbus course catalog.

- the Campus (of offering) will be set as Columbus, with a location (code) of Wooster (CS-WOOSTER).
- The location (code) of CS-WOOSTER toggles off the Columbus Campus associated fees with the Registrar's office.

Items to check: Instruction Mode

Instruction Mode – Temporary approvals expired at the end of AU21.

Cancelled Course

When **no** students are enrolled, will proceed to cancel the class.

When students **are** enrolled, the Unit will need to contact the enrolled students to inform them of the cancellation, before the course may officially be cancelled within SIS.

Relocated Courses

Please notify our office when moving a course's meeting location, even if it is internal to another space within the Unit.

SIS must accurately reflect where classes are being conducted.
