Access and Affordability Initiatives - CarmenBooks

Office of Distance Education and eLearning

Reducing Textbook Costs with Carmenbooks. Through a partnership with Unizin, significant savings have been negotiated with many major textbook publishers - up to 80% off retail price. Digital textbooks are delivered directly in CarmenCanvas in a tab called CarmenBooks, allowing access to every student at the beginning of the semester. Speak with the representative present to discover how it work.

Digital Flagship - iPad

Office of Distance Education and eLearning

Digital Flagship is a comprehensive, university-wide digital learning initiative to support educational innovation for students and economic development opportunities for the community. Digital Flagship representatives will provide information about the initiative including information about the student technology (e.g.,iPad and apps), coding curriculum, and the mobile design lab.

Table #9

Digital Flagship - Mobile Design Lab

Office of Distance Education and eLearning

Coding and digital skills are on the move across Ohio. The Mobile Design Lab is a unique space that makes it possible for all Ohio State students and faculty to build comprehensive digital skills through coding education, app development experts, community projects and state of the art technology available in the lab. In addition to serving all Ohio State campuses, the Mobile Design Lab will provide outreach to K-12 schools, the larger Ohio community and extended campus partners.

Notability

Ohio State University ATI Library

Students at OSU that receive iPads also get the educational apps called Notability and Explain Everything. At this table you will learn how these apps work. Notability is a powerful, yet simple note-taking and PDF annotation app. Explain Everything is an innovative online and mobile whiteboard for creating engaging collaboration and learning experiences.

Pressbooks

Office of Distance Education and eLearning

Pressbooks is simple book production software. You can use Pressbooks to publish textbooks, scholarly monographs, non-fiction and fiction books, white papers, and more in multiple formats. Combining Pressbooks with the H5P plug in allows for creation of interactive elements within a digital book to produce an engaging and affordable product. Specific case studies featured at this booth will include digital books created and evaluated for HCS 3100 and CRSPOIL 2422T. Exhibitor is an experienced Pressbooks user. Feel free to ask about the Pressbook building process, book distribution, and initial feedback from students.

Professional learning on Evidence-Based Instructional Strategies and Scholarship of Teaching and Learning Discipline-Based Research

University Institute for Teaching and Learning

Teaching Endorsements: Endorsements are credentials awarded to faculty who participate in professional learning programs that promote excellence in teaching. Teaching Support Program: The Teaching Support Programs (TSP) is a three-part, program for full-time and part-time tenure-track faculty, clinical faculty and lecturers. Faculty are provided with evidence-based practices and resources to help them reflect on their teaching and design learning activities, materials and courses that best support student learning. Completion comes with base pay increase. Research and Implementation Grants: Each year, UITL awards funding to faculty who are engaged in Scholarship of Teaching and Learning (SoTL) or Disciplinary-Based Educational Research (DBER) to support projects that advance the implementation and/or research of instructional best practices in their courses.
