

CFAES

2020 DISTINGUISHED SENIOR

“Without the faculty mentors in my major, I wouldn’t have arrived today. They always supported and encouraged me to continue my academic career while providing me with assistance and advice to reach my goal of completing my degree with high grades in all classes.”

In addition to my studies and full-time work, I have full-time family responsibilities with a wife and three daughters.

I have remained results-driven in my experiences with eight years of construction management experience coming into this program.
