

CFAES

2020 DISTINGUISHED SENIOR

I completed internships at the Waterman Dairy Farm and Ohio Wildlife Center.

I researched cattle genetics that led to multiple births and presented my research in São Paulo, Brazil.

I was on the executive team for Delta Sigma Phi Fraternity and a CFAES Peer Mentor.

“Being an undergraduate Teaching Assistant has allowed me to give back to a program that has meant so much to me; it has helped foster the same passion for animal science that I have, in others.”
