

2020 DISTINGUISHED SENIOR

“Animal Science Community Alliance (ASCA) has been the most rewarding and enjoyable part of my undergraduate career because of the many events ASCA plans and the students we connect with throughout the school year.”

I went on three study abroad trips to Ireland, Nicaragua, and Italy, where I was able to apply my education to real-world experiences.

I was an intern with the Heritage Cooperative and Kim Davis Insurance Agency.

I ran my first half marathon at the Nationwide Children's Hospital Columbus Marathon in October!.
