

## 2020 DISTINGUISHED SENIOR

As part of my capstone project, I created and presented an energy efficiency business plan and presented it to the Columbus International Airport.

During my study abroad to Guatemala, I worked with three other undergraduate students on an ecotourism project.

I developed a chapter of Net Impact by encouraging new memberships and building community.

"I could not have imagined my experience at Ohio State without this wonderful and rewarding on-campus job of serving as a Student Instructional Assistant."
