

2020 DISTINGUISHED SENIOR

I led
an after school,
agriculture club at
Metro Early College
Middle School.

My
undergraduate
research helped
inform and build a new
course offered through
the Department of
Horticulture and Crop
Science.

Being
selected as a
Greenfield Scholar
was a great opportunity
for me to network
within my field.

“As a student research assistant my supervisors saw potential in research with my curious mindset long before I discovered it in myself. My fondness towards research grew-led me to complete my undergraduate research project and led to me applying to graduate school.”
